

Vladan Koncar is Director of the GEMTEX research laboratory and Head of Research at ENSAIT in Roubaix, France. Prior to this, he was the President of the Association of Universities for Textiles (AUTEX) for 3 years.

Professor Koncar completed his Ph.D. in informatics and automation at the University of Lille, France, in 1991. Since then he has taught in fields such as communicative and intelligent textiles, automation, virtual reality, and computer networks. He is also Special Editor of the Research Journal of Textile and Apparel, and sits on the editorial board of a number of other publications including the Textile Progress Journal and the Nordic Textile Journal. His research interests include multifunctional and intelligent textiles, flexible sensors and actuators, and hybrid systems, modelling, identification and control.
